DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claim 18 is rejected under 35 U.S.C. 102(a) as being anticipated by Pederson et al. (U.S. Patent 6,471,460).

Pederson et al. disclose a data storage device combination comprising a motor assembly (120) rotating a disc into a data exchange relationship with a read/write head, the disc presented for attachment to the motor assembly by steps for presenting the disc executed by means for presenting the disc (col.4, lines 34-64; col.5, lines 3-17).

Allowable Subject Matter

3. Claims 1-17 are allowed.

4. Claims 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. USPN6142723, USPN6902059 teach similar invention..
